## MISSION STATEMENT

The mission of Tower Health Providers (THP) is to improve the overall health of our patient population through the deployment of a clinically integrated program that reduces care fragmentation and delivers high quality, cost-effective care. THP will be physician-driven and patient-centered with the goal of creating shared value for the patients, providers, employers, and payors.

## CLINICAL INTEGRATION

Navigating Value-Based Care for  
Physician Success and Patient Satisfaction

**Tower Health Providers®**

Advancing Health. Transforming Lives.

*A Physician-Led, Physician-Governed  
Organization*

## Welcome to Tower Health Providers®

Clinical Integration is critical to the future of healthcare. Healthcare is moving in a clear direction away from payment-for-volume (fee-for-service models) to payment-for-value. Tower Health Providers (THP) is a physician-hospital partnership that is patient-centric and physician-led with guiding principles of improving the quality and efficiency of healthcare in our communities.

### Tower Health Providers:

- is a physician-led, physician-governed organization.
- advances the quality of patient care using evidence-based guidelines.
- provides coordinated, cost-effective care.
- improves patient and provider satisfaction.
- increases efficiencies throughout the continuum of care.
- supports physician accountability, incentives, and rewards for high-quality care delivery.

*"Tower Health Providers continually evolves to improve coordinated care. This starts with effective and efficient communication. As an independent otolaryngologist, in a single specialty group practice based off campus, we have experienced more meaningful communication with referring physicians with respect to hospital consults. This has increased our efficiency with respect to time away from patient care in the office setting."*

- James P. Restrepo, MD, FACS, ECNU  
Otolaryngology

## The Benefits of Clinical Integration

Membership in Tower Health Providers offers benefits to physicians and their practices. Clinical Integration through Tower Health Providers supports value-based patient care to help participating physicians deliver clinical excellence. This creates a solid, high-value physician network attractive to payors and employers.

### For Physicians:

- Non-exclusive membership with no cost or fees
- Clinical data exchange and robust analytics
- Continuing education opportunities
- Quadruple Aim: Empowering physicians via work/life balance and self-care
- Collective contracting for incentive payment models and shared savings
- Dedicated practice and staff support
- Care management and ancillary service support
- Network referral strategies
- Quality improvement, reporting, and analysis

## Physician-Led, Physician-Governed

Tower Health Providers is led and governed by physicians. Physician committees lead foundational projects that drive change and innovation through groundbreaking work around quality, population health, and network growth. Committees are strategically balanced in geography and membership to support Tower Health Providers' clinically integrated service areas. Tower Health Providers committees report to a physician-majority Board of Managers for alignment with the mission and vision of Tower Health Providers.

*"Being a part of Tower Health Providers as a physician is helping me to better understand how different parts of healthcare impact each other. We have a forum to balance what feels like competing goals from hospitals, insurance companies, and government mandates, with our commitment to our patients as clinicians."*

- Olubunmi Ojikutu, MD  
Pediatrics

### Become A Member:

Membership in Tower Health Providers is open to physicians wanting to commit to the pursuit of value-based care for their patients. Every participating physician must meet the following criteria:

- Member affiliation at a Tower Health hospital
- Fully credentialed by a licensed credentialing body
- Currently using ePrescribing and disease registries, or committed to use in the future
- Active use of an EMR or other electronic clinical documentation system, or committed to use in the future
- Adherence to clinical integration policies and procedures
- Interface electronically to share clinical quality data

Requests to join the network are reviewed and vetted by governing committees led by Tower Health Providers physician members. Contact Tower Health Providers today to learn more or to request an enrollment packet.

**Established in 2012, Tower Health Providers is one of the largest clinically integrated provider networks in the region.**
